SAVE NATURE

Respected judges,
teachers and my
dear friends,

Today, I want to
speak on "Save Nature".

Nature is the most
precious gift we have.
It gives us air to breathe,
water to drink, food to
eat and a place to live.

But today, our nature
is in danger because of
pollution, deforestation
and the careless
actions of humans.

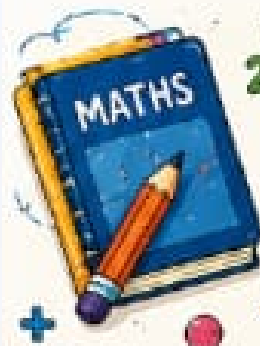

Let us promise
to protect our
environment.

Plant more trees,
save water,
reduce waste and
be kind to every
living thing.

Together, we can
make our Earth
green, clean and
beautiful.

Thank you!
